Rescuing US Biomedical Research

- <8% of entering PhD students become tenure track faculty...
- National funding levels for basic research are at an all-time low

Workshop 1: Should the workforce in biomedical research be restructured to better align with funding and careers?

Two Chances to join the discussion:
(With special sections for graduate students and post-docs only)

March 3rd 2-4pm
2-3:30 (Everyone, including grad students and post-docs)
3:30-4 (Grad students and post-docs only)
Ebling Auditorium, Microbial Sciences Building

March 5th 4-6pm
4-5:30 (Everyone, including grad students and post-docs)
5:30-6 (Grad students and post-docs only)
Room 1335, Health Sciences Learning Center
