

**GRADUATE STUDENT  
SEMINAR PRESENTATION REQUIREMENT\***

**\*Refer to IPiB Handbook, section 3.3.2 for further information**

**Seminar Requirement:** During your graduate career, you are required to present a minimum of 3 seminars in advanced seminar courses and receive a grade of B or better in each seminar. One literature seminar shall be given in the general area of your research interests. One literature seminar will be in an area outside your specific research interests. One seminar shall be presented on your research progress in an interdepartmental graduate seminar (BMC 901 or Biochem 729—IPiB seminar), usually in your fourth or fifth year of graduate study. For each of the 3 advanced seminars in which you present, we need a completed form on file.
