

Annual Progress Report

"*" indicates required fields

Student Name *

Thesis Advisor *

Meeting Date *

1. Exhibit a broad understanding of general biochemical principles.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

2. Appreciate current limitations to knowledge in their field.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

3. Formulate new approaches to extend knowledge in their field.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

4. Conduct independent research using a variety of approaches.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

5. Think critically to address research challenges.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

6. Collaborate with other investigators within or outside the thesis lab.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

7. Exhibit and foster professional and ethical conduct in their research.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

8. Clearly communicate their research to fellow scientists.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

9. Explore career development opportunities in industry, government, and academia.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

10. Develop teaching and mentoring skills.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

11. Engage in learning, practices, and events/activities that contribute to a diverse, equitable, and inclusive community of researchers and educators.

- ☐ Exceeds expectations
- ☐ Meets expectations
- ☐ Does not meet expectations

Fellowships Applied For

Did the student apply for any fellowships in the past year? If so, what was the outcome?

Is the student supported by NIH funds?

- ☐ Yes
- ☐ No

Has the student created an IDP?

UW-Madison requires that all graduate students supported by NIH funding create an Individual Development Plan (IDP).

☐ Yes

☐ No

Date IDP last discussed with thesis advisor or other advisor:

Has the student given their IPiB Seminar?

☐ Yes

☐ No

Did the committee meet with the student without the thesis advisor present?

☐ Yes

☐ No

Did the committee meet with the thesis advisor without the student present?

☐ Yes

☐ No

Summarize progress the student has made in planning the next step of their career.
What are the goals for next year?

Is the progress made on the thesis project adequate? If not, provide specific recommendations for changes to the student's project or approach to enhance progress in the coming year.

Summarize work that is required to complete the thesis project, including consideration of the requirement for a first-author publication.

Please list any of the student's publications in progress, submitted, or published.

Is the student on track to degree completion within six years of matriculation? If not, when?

List Committee Members
